PROFESSIONAL SUMMARY

QA Analyst / Application Tester with 4+ years of manual and end-to-end testing experience, plus hands-on frontend development experience with React, TypeScript, REST APIs, and MongoDB. Experienced in release validation, regression testing, defect reporting, API testing with Postman, and frontend workflow validation. Currently building automation testing skills with Playwright for web UI testing.

WORK EXPERIENCE

Application Tester (Manual QA / End-to-End Quality Validation)

Dec 2018 – July 2023

Lionbridge Technologies, Inc

- Executed manual end-to-end testing of production software, including Windows desktop applications submitted to the Microsoft Store, as well as mobile and Xbox platforms
- Validated application behavior against functional, usability, and platform compliance requirements to support release decisions
- Identified, documented, and submitted clear, reproducible bug reports with steps to reproduce, expected vs. actual results, and environment details
- Verified defect fixes through retesting and regression testing before publication

Test Associate (Chinese Traditional) | *Forza Horizon 4*

July 2018 – Aug 2018

Lionbridge Technologies, Inc

- Tested the Traditional Chinese version of Forza Horizon 4 prior to release, focusing on localization quality, in-game text accuracy, and user experience
- Verified Traditional Chinese content against gameplay context; credited in the published game as Yi-Ning Liu – Test Associate (Chinese Traditional)

Frontend Developer (Client Project / Capstone)

Sep 2024 – Dec 2024

FindGrant

- Collaborated with stakeholders, developers, and designers in an Agile sprint environment
- Validated application behavior through feature-level testing, data flow verification, and edge-case analysis during development and prior to production deployment
- Used Postman to test API requests, responses, and error handling across frontend-backend interactions

PROJECT

Expense Tracker | *React, Node.js, MongoDB, Tailwind CSS, REST APIs, Google OAuth*

- Built and tested CRUD workflows for expenses, authentication, filtering, and reporting across frontend and backend user flows
- Validated REST API behavior, MongoDB data consistency, error handling, and transaction records using Postman and manual E2E testing

TECHNICAL SKILLS

Testing & QA: Manual Testing, End-to-End Testing, Regression Testing, Test Execution, Defect Tracking & Reporting, Playwright

API & Debugging: REST API Testing, Postman, Response Validation, Chrome DevTools

Programming & Frameworks: JavaScript, TypeScript, React, MongoDB, Oracle, C#

Tools & Platforms: Git/GitHub, CI/CD Pipelines, Vercel

EDUCATION

Diploma of Software Engineering Technician | Centennial College, Toronto, ON

Sep 2023 – Dec 2024

Bachelor of Italian | Beijing Language and Culture University, Beijing, China

Sep 2014 – July 2018
